

About the Construction

Lee County begins construction this month to widen Littleton Road from the Corbett Road roundabout east to US 41.

The new road segment will widen Littleton Road to three lanes including:

- An 11-foot-wide travel lane in each direction
- A 12-foot-wide center turn lane with landscaped planting islands
- 4-foot on-road bike lanes on each side of the new road
- 6-foot concrete sidewalks on each side of the new road

The contractor, Wright Construction Group, Inc., anticipates working daytime hours, Monday through Friday, with some weekend work possible. Lane closures during peak travel hours are not anticipated. Work will begin on the north side of the road, followed by the south and finally, the median. Crews will begin the project by clearing the area and installing erosion and traffic control devices in preparation for building the improvements.

Cost of the project is approximately \$20 million. Estimated completion is late summer 2025.
